Amirabad G.K. High School, Chandpur

Secondary School Certificate (SSC)

Passing Year : 2014

GPA: 4.56/5.00

ACADEMIC PROJECT

Academic Research Publishing Management System

- Authors can create accounts and submit manuscripts.
- Reviewers are assigned to evaluate and provide feedback.
- Editors oversee the process and make acceptance decisions.
- **Tech Stack:** JavaScript (Frontend), Node.js, Python (Backend), MySQL
- **GitHub Links:**
- **Frontend:** <https://github.com/sajibkhan33/Reserach-frontend>
- **Backend:** <https://github.com/sajibkhan33/Reserach-backend>

PERSONAL PROJECTS

Dragon-News (Frontend Focused)

- User Registration (Firebase Authentication)
- User Login (Email/Password)
- Responsive design with Tailwind CSS & DaisyUI
- **Tech Stack:** React.js, Tailwind CSS, DaisyUI , Firebase Authentication
- **GitHub Links:**
- **Frontend:** <https://github.com/sajibkhan33/Reserach-frontend>

Pro-Fast-Couriar(Frontend Focused)

- Built a role-based e-commerce system where sellers can add and manage products through a dedicated dashboard..
- Implemented Product Management (add new product, update details, view product list).
- Integrated Cloudinary for image uploads and optimized product media handling.
- Used Clerk authentication for secure login/registration with role-based access.
- Utilized Inngest for event-driven workflows (e.g., order status updates, background tasks)..
- **Tech Stack:** Next.js (v15), React 19, Tailwind CSS, Clerk Authentication, MongoDB (Mongoose), Cloudinary, Inngest
- **GitHub Links:**
- **Frontend:**<https://github.com/sajibkhan33/pro-fast-client>
- **Backend:** <https://github.com/sajibkhan33/backend-pro-fast>
- **Live-link:** <https://pro-fast-d8boe.web.app/>

Quick-Cart-Ecommerce(Frontend Focused)

- Developed a full-stack courier service platform with separate dashboards for Users, Riders, and Admins.
- Users can register/login, send parcels, and track delivery status.
- Riders can apply for jobs, accept assigned deliveries, confirm delivery, and request withdrawals.
- Admins manage users and riders, assign deliveries, approve withdrawals, and monitor operations.
- Implemented role-based access control (RBAC), secure authentication, and protected API routes.
- Designed and integrated RESTful APIs with MongoDB for parcel management, order lifecycle, and wallet transactions.
- **Tech Stack:** JavaScript (Frontend), React JS, Tailwind CSS, Daisy Ui, React router, Daisy Ui, Node.js, Express JS, MongoDB
- **GitHub Links:**
- **Project-link(git):** <https://github.com/sajibkhan33/Quick-Cart>
- **Live-link:** <https://quick-cart-liart-iota.vercel.app/>

Portfolio Website

- Developed a responsive personal portfolio showcasing projects and skills.
- **Tech Stack:** Developed a responsive personal portfolio showcasing projects and skills.
- **GitHub Links:**
- **Project-link(git):** <https://github.com/sajibkhan33/portfolio>
- **Live-link:** <https://portfolio-eight-lake-99.vercel.app/>
